

AHD is a global fully-integrated leader
Steel & Stainless foundry

A wide range of Carbon Steel, alloyed
and Stainless, Duplex & Super-Duplex
castings from 100kg (220lbs) up to
10.000kg (22000lbs)

AHD operates the most modern foundry
production units in Europe (3 foundries
commissioned in 2009, 2013 and 2014)

Est. 1869 in Saint Dizier, France

400 people

One of the largest Steel Foundry in
Europe (20.000sq.m)

11.000t of castings per year

Foundry Unit N°1

4t AOD - 4t Induction furnace

Capacity 4000t/year

Automatic Heat-treatment line

Castings from 500kg
up to 2000kg

Foundry Unit N°2

8t AOD - 2 Induction furnaces (4 & 8t)

Capacity 4000t/year

Heat treatment facility designed for Duplex & Super-Duplex

Castings from 1500kg up to 10000kg

Foundry Unit N°3

Capacity 3000t/year

Semi-automated moulding

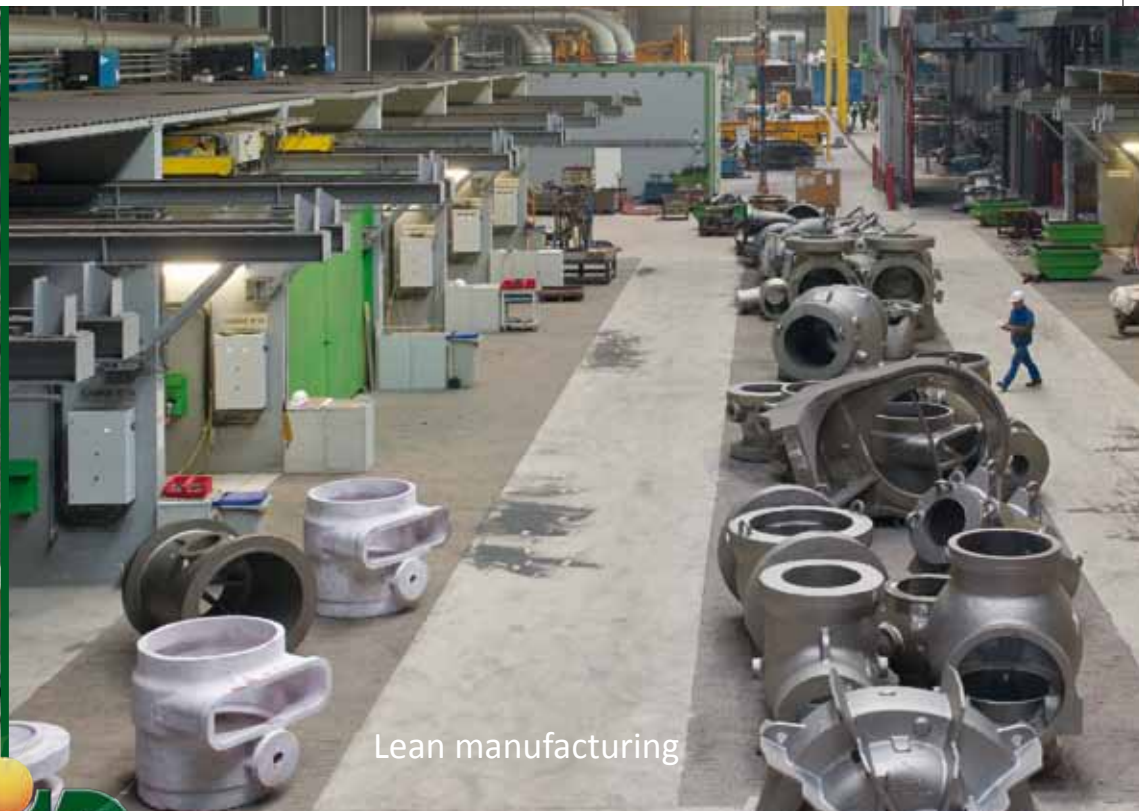

Castings from 100kg
up to 500kg

Mobile Sand-Mixer (capacity 60t/h)

Lean manufacturing

Optimized Heat-treatment on site

All testings & machining on site

CERTIFICATIONS

IN-HOUSE QA/QC

Metallurgical laboratory
Mechanical properties
UT, MPI, LPI, Visual
RT (Linear accelerator 3MeV)
Hydro Test (up to 100 bars)
3D dimensional
Romer Arms...

MARKETS SERVED

OIL&GAS PUMPS
